

**PUBLIC UTILITY DISTRICT NO. 1
OF
JEFFERSON COUNTY, WASHINGTON**

RESOLUTION NO. 2016 -020

A RESOLUTION of the Board of Commissioners of Public Utility District No. 1 of Jefferson County, Washington, superseding Resolution 2013-006 a Resolution adopting various Public Utility District Electric Service Regulations, and setting current PUD Rates, and Charges

WHEREAS, the Public Utility District No. 1 of Jefferson County, Washington has been operating the Electrical Facilities of the District since 1 April 2013 and has made only minor changes in utility regulations, rates and fees; and

WHEREAS, the District contracted with EES Consulting firm in 2016 and said firm recently completed an Electrical Utility Cost of Service and Rate Study; and

WHEREAS, the District staff has reviewed PUD Resolution 2013-006 and its Exhibits: PUD Electric Service Regulations (Exhibit "A"); PUD Schedule of Deposits and Charges (Exhibit "B"); PUD Electric Line Extension Unit Prices (Exhibit "C") and PUD Schedules of Electrical Service (Exhibit "D"); and

WHEREAS, the District staff and EES Consulting have prepared, and the District Board of Commissions has reviewed certain modifications to Exhibits "A", "B", "C", and "D" to the Resolution 2013-006; and

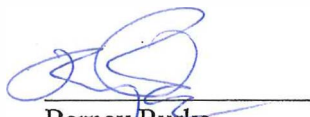

WHEREAS, the District has recently conducted several Cost of Service and Rate Study Workshops and public hearings on proposed changes to the PUD's Rates and Charges.

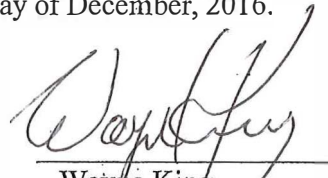

NOW, THEREFORE, BE IT RESOLVED by the Board of Commissioners of Public Utility District No. 1 of Jefferson County, Washington as follows:

The District adopts the documents titled "Public Utility District No. 1 of Jefferson County Electric Service Regulations (Exhibit "A"), "Public Utility District No. 1 of Jefferson County Schedule of Deposit and Charges (Exhibit "B"), Public Utility District No.1 of Jefferson County Electric Line Extension Unit Price (Exhibit "C") and Public Utility District No. 1 of Jefferson County Schedules of Electric Service (Exhibit "D"), attached hereto and incorporated by reference, all effective 1 January 2017

ADOPTED by the Board of Commissioners of the Public Utility District No. 1 of Jefferson County, Washington, at a regular meeting this 13th day of December, 2016.

Ken Collins
President

Barney Burke
Vice President

Wayne King
Secretary

CERTIFICATE

I, the undersigned, Secretary of the Board of Commissioners of Public Utility District No. 1 of Jefferson County, Washington, and keeper of the records of said Board of Commissioners (herein called the "Board"), DO HEREBY CERTIFY:

1. That the attached is a true and correct copy of Resolution No. 2016-021 (herein called the "Resolution") of the Board, duly adopted at a regular meeting thereof held on the 13th day of December 2016.

2. That said meeting was duly convened and held in all respects in accordance with law, and to the extent required by law, due and proper notice of such meeting was given; that a legal quorum was present throughout the meeting and a legally sufficient number of members of the Board voted in the proper manner for the passage of said Resolution; that all other requirements and proceedings incident to the proper passage of said Resolution have been fully fulfilled, carried out and otherwise observed; and that I am authorized to execute this certificate.

Dated this 13th day of December 2016.

Secretary of the Board of Commissioners
Wayne King

SECTION 9- VALIDITY AND EFFECTIVE DATE27

A.	VALIDITY	27
B.	EFFECTIVE DATE	27

SECTION 1 - DEFINITIONS

- A. **ANNUAL LOAD FACTOR** - The quotient of the annual electric usage divided by the product of the highest monthly peak demand multiplied by 8,760 (24 x 365).
- B. **APPROVED LESSEE** -A person or legal entity furnishing evidence of a lease of sufficient duration and provisions, in the opinion of the General Manager of the District, to justify application of the Line Extension Policy for line construction to serve a proposed facility.
- C. **BILLING PERIOD** - The normal billing period will be from 27 to 33 days and adjusted so that there are twelve (12) billing periods per calendar year. The District reserves the right to adjust billing periods in order to facilitate operations.
- D. **COMMERCIAL SERVICE** - A commercial service is any service to any building, facility or structure that is owned and operated as a part of a business.
- E. **CONTRACTED SERVICE LOCATION** - The designated site on a parcel of land where service is requested by the person(s) initiating line construction, which site determines both timing and ownership of refunds which become available. To qualify as a Contracted Service Location, a site must be of adequate size to accommodate the facility stipulated in the Customer's contract.
- F. **CONTRIBUTION IN AID OF CONSTRUCTION** - The construction cost of a line extension as paid by the Customer plus unit trench and conduit cost for lines installed by the District.
- G. **CONVENTIONAL SUBDIVISION** - A subdivision of land such that installation of electric utility lines is required by the County for approval for marketing of building sites.
- H. **CUSTOMER** - A person, commercial business, or other entity that has, or has applied for, a service account with the District.
- I. **DEVELOPER** - A person, commercial business, or legal entity requesting service to two or more dwelling sites, to a manufactured home rental facility, or to a multi-family structure.
- J. **DISTRICT** - Public Utility District No.1 of Jefferson County, Washington.
- K. **FINANCIAL INSTITUTIONS** - Banks, credit unions, and savings and loans.

- L. HOME ENTERPRISE AND HOME-BASED INDUSTRY SERVICE - Home-based enterprise, business, or industries shall be defined by requirements set forth in the Jefferson County Zoning Code. When meeting these requirements, the service shall be classified as a Residential Service.
- M. IDLE FACILITIES - Overhead and underground lines and equipment which were installed as a means of providing service to customers and have not been used by the customer for active service for a period of one year or more.
- N. INDUSTRIAL SERVICE - An industrial service is any commercial service that has over 50 horsepower or over 100 kW of total connected load.
- O. LOW INCOME -Meeting the guidelines established by the PUD policy and/or state, or federal regulations.
- P. MANAGER - The General Manager of Public Utility District NO.1 of Jefferson County, Washington, or authorized agent thereof.
- Q. MANUFACTURED HOME - A structure for residential occupancy (eating, sleeping, and sanitation accommodations) that is built on a permanent chassis designed to be transportable and is a minimum of 8 feet wide and 40 feet long excluding the tongue. (Formerly referred to as "mobile home.")
- R. NONCONVENTIONAL SUBDIVISION - Any other subdivision of land, including short-platting, where installation of electric utility lines is not required under County regulations.
- S. OWNER - The Owner of property shall be deemed the holder of the Statutory Warranty Deed, EXCEPT that in the event of contract sale, the Owner shall be deemed to be that person (those persons) purchasing the property by Real Estate Contract.
- T. PERSON - Human Beings, associations, co-partnerships, and corporations, whether acting by themselves or by a servant, agent, or employee.
- U. RESIDENTIAL SERVICE - A residential service is a service to any building, facility or structure that is associated with a residence. This residence may be either single or multi family type. Included in this category will be manufactured homes occupying spaces in parks if the spaces are individually metered. Not included in this category will be motels, hotels and RV parks that have only one meter or master meter for multiple units.

- V. Not Assigned
- W. TRENCH - Trenching, bedding, backfilling, compaction, restoration, and maintenance of subsequent ditch settling.
- X. TRENCH COST - The unit cost of trenching as established by the District.

SECTION 2 -GENERAL REGULATIONS

A. CONTRACTS, RATES, AND RESALE

Electric service shall be provided upon written application; such application being a contract for service, subject to the Electric Service Regulations of the District. Rates shall be as detailed in the applicable Rate Schedule. Where, by special consideration of the Manager, more than one Customer receives service from one metering point, the basic charges may be multiplied by the number of Customers. Unless otherwise provided in the contract, the Customer shall not resell the electric energy provided under this Regulation. Any customer desiring to resell electric energy received under the terms of this contract shall be required to enter into a sub-metering service provider contract with the District.

1. Effective Date of Contracts

All service contracts shall take effect from the day they are signed, and rates will be charged and bills rendered from the date the premises are connected with electrical power.

2. Term of Contracts

All service contracts shall be binding and, unless otherwise specified, shall continue in effect until after notice of discontinuance is filed in the office of the District.

3. Customer's Protection

No inspector, agent, or employee of the District may ask, demand, receive, or accept any personal compensation for any service rendered to Customers of electric power, or other persons, in connection with supplying or furnishing electric power by the District.

4. Obligations of District to be in Writing

No promise, agreement, or representation of any employee or agent of the District with reference to furnishing of electric power shall be binding on the District unless the same shall be in writing, signed by the Manager in accordance with the provisions in these Regulations.

5. Liability for Violating Provisions of these Regulations

Any person violating any of the provisions of these Regulations shall be prosecuted in accordance with applicable laws; and in addition, the service of any person found guilty of violating the provisions of these Regulations may be disconnected, and the person violating shall be liable for all damage and expenses incurred by the District and for all electric power used by reason of such violation.

6. Requirement to Meet Building Code Standards

No building shall qualify for service connection if it does not meet or exceed any Regional, State, County, Municipal, or District building code or energy-efficiency standard.

B. SERVICE NOT COVERED IN RATE SCHEDULES

Service may be supplied to Customers not coming within the scope of the regular Rate Schedules of the District; provided that such service shall be covered by separate contract, which may be subject to provisions of the District's power purchase agreements, and shall be approved by the Commissioners of the District.

C. DELIVERY POINT

A delivery point will be established by the District for each customer, generally the meter for a residential customer.

D. TAX ADJUSTMENT

The amount of the total of any or all revenue, kilowatt hours, or other form of tax imposed by any municipal, federal, or state taxing body upon the District, may be apportioned by the Commission of the District according to the territory in which such tax or taxes may be effective and amongst the various different classes of service furnished therein, and shall constitute an additional charge to any amounts which may be billed to any Customer under any rate schedule or special contract covered by these Regulations.

E. DISCONTINUANCE OF SERVICE

The District reserves the right to cut off the supply of electric power and discontinue service in the event the Customer:

1. shall fail to comply with the District's Service Regulations; District facility access requirements or provisions of the Service Contract, or,
2. after due-process, non-payment of a District invoice. Service may be disconnected by the District at any time to prevent fraudulent use or to protect its property. Reconnection will occur after satisfactory remedy to the District. (Also see Section 8, Items C.2 and C.3.)

F. BOARD OF COMMISSIONERS

The Board of Commissioners of Jefferson County PUD establishes policies for the District. Any customer who wishes to comment on, make a recommendation regarding a policy, or who disagrees with a decision made by District staff may address the Commissioners at a

regularly scheduled Board meeting.

G. APPLICABILITY OF DISTRICT ELECTRICAL SERVICE REQUIREMENTS AND FACILITY ACCESS POLICY

In addition to these regulations, the District's electrical service requirements and facility access requirements are also applicable to the installation, operation and maintenance of all District electrical facilities.

The Customer shall not permit access to District equipment or lines by anyone other than authorized representatives of the District. The Customer shall obtain and grant all necessary permission to enable District Representatives to install, maintain, service, or remove its facilities located on the Customer's property.

Facilities installed on Customer property will be in accordance with current District regulations, requirements, and policies that give consideration for present and future access.

The Customer shall keep the area around all meters, transformers, and other District facilities on the Customer's property free of vegetation, health and safety hazards, debris, and obstructions; to ensure clear and safe access at all times.

H. RIGHT TO REFUSE SERVICE

The District reserves the right to refuse to connect, or render service to, any applicant or any Customer where such connection and/or where the applicant or Customer has not complied with State, Municipal, or District Electric Service Regulations or requirements or facility access requirements concerning the rendition of service or has an unpaid obligation to the District.

I. RIGHT TO ENTER UPON PREMISES

The District shall have the right, through its agents or employees, to safely enter the property of the Customer at all times for the purpose of: reading, inspecting, repairing, or removing metering devices, appliances, and wiring of the District; trimming or removing trees and brush around meters, transformers, or other equipment that may interfere with the safe and efficient operation of the utility system; maintenance of utility lines, both overhead and underground; and inspection, replacement, installation and removal of District facilities.

J. NEW RESOURCES

The District receives an allocation of the federal-based system to serve Customers under the Tiered Rates Methodology referred to as the Bonneville Power Administration's (BPA)

Tier 1 Allocation. New or existing Customers with whose power requirements are projected to be greater than 1.0 MW of peak demand are subject to the PUD's "New Large Load Policy"

GENERAL RATE SETTING PRINCIPLE – Rates applicable to new large loads will include the estimated costs of service and incorporate provisions designed to recover the additional power-related costs incurred by the District as a result of the new large load customer taking electric service and the District having to purchase power in excess of its Tier 1 allocation from the Bonneville Power Administration ("Bonneville").

SECTION 3 -LINE EXTENSION REGULATIONS

A. GENERAL PROVISIONS

1. Location

Permanent line extensions will normally be built in the most direct route from the nearest source of supply. However, availability of easements and maintenance considerations may affect line routing. Placement of line extensions shall be at the discretion of the Manager of the District.

2. Not Assigned

3. Trenches

The Customer or Developer shall provide trenches to District specifications for all underground installations.

4. Easements

The Customer or Developer shall provide easements as required for the extension, in the location and the width specified by the District.

5. Ownership of Facilities

Ownership of any and all facilities constructed under the District's Line Extension Regulations shall remain with the Public Utility District NO.1 of Jefferson County, Washington. Ownership of Customer or Contractor installed extensions will begin when approved and energized by the District.

6. Increase. Maintenance and Upgrading of Facilities

Any costs incurred to provide any increase in facilities beyond those requested or needed to serve the load of an individual Customer or Developer (see Section 5.A) shall be absorbed by the District, provided that the Manager of the District shall be the final authority as to the size of facilities to be installed, and provided that certain standard and minimum facilities may be established as customary for District installation. Maintenance and upgrading of facilities for District purposes following initial construction shall be the responsibility of the District.

7. Not Assigned

8. Contracted Service Location

When a line extension is initiated by a Customer, the location on the property where service is requested shall become a part of the contractual agreement.

Acceptance of service by the Customer shall be deemed evidence of proper identification of that location. The Customer may modify the Contracted Service Location by notifying the District in writing prior to service first being connected at the site; and when such notification is acknowledged by the District, the new site shall become the Contracted Service Location.

9. Construction and Ownership of Extension

The Customer(s) shall bear the cost of the extension (as calculated by the PUD using existing extension fees and charges) in accordance with all specifications of, and subject to inspection and approval by the District. Electrical service will not be made available until all requirements are met by the Customer(s).

10. Proposal Cost

The District will provide line extension cost estimates to the Customer or potential developers.

11. Unit Costs

The District Manager will establish unit costs (exhibits "B" & "C") for components of the electrical system used in line extensions and a unit cost trench allowance. These costs will be changed as needed to reflect current expenses and policy.

12. Cost Accounting

The District will review the actual cost of each line extension. If the actual cost exceeds the estimate by more than \$100, the Customer may be invoiced for that amount in excess of the estimate; or if the estimate exceeds the actual cost by more than \$100, a refund of the excess will be made to the Customer.

B. RESIDENTIAL LINE EXTENSIONS

1. New Service Charge

The District's New Service Charge shall be paid prior to connection to District facilities, and shall provide for installation of a transformer, overhead service conductor installation, underground service inspection and connection, and the District's portion of the metering equipment for a service to a single-family residence.

2. Construction Costs

Where facilities construction is required to make service available to a single-family residence, the costs to the Customer(s) shall be determined as follows:

- a. The estimated cost of the facilities to be constructed by the District plus the New Service Charge will be determined by the District.
- b. The Customer(s) desiring service shall pay to the District the estimated cost of the facilities plus the New Service Charge.

C. COMMERCIAL LINE EXTENSIONS

1. New Service Charge

The New Service Charge shall be paid prior to connection to District facilities.

- a. For Commercial Accounts the District's New Service Charge shall provide for installation of transformers, overhead service conductors, underground service connection and the District's portion of metering equipment.
- b. Primary Metering. The cost of primary metering shall be paid by the Customer, unless such primary metering is required by the District for its benefit.

2. Construction Costs

Where facilities construction is required to make service available to a commercial account, the costs to the Customer shall be determined as follows:

- a. The estimated cost of the facilities to be constructed by the District plus the New Service Charge will be determined by the District.

b. The commercial Customer(s) desiring service shall pay to the District the estimated cost of the facilities plus the New Service Charge.

D. INDUSTRIAL AND LARGE POWER LINE EXTENSIONS

Line extensions for industrial and large power accounts shall be made by individual arrangement.

E. DEVELOPER LINE EXTENSIONS

Construction Costs A Developer requesting extension of electric lines in Conventional or Non-conventional Subdivisions or to provide service for manufactured home rental facilities or multi-family dwelling structures shall pay to the District the District's estimated cost of the required facilities prior to work being scheduled.

F. Not Assigned

G. IDLE FACILITIES

Line extensions will be owned and maintained by the District as long as customers utilize them for electric service. When it is determined that District facilities have been idle for a period of one year, the District has the right to remove the facilities or parts thereof. The District will attempt to contact the property owner to determine if he/she has a future need for the idle facilities. Customers who are not using any energy but wish to have the facilities available can do so by paying a monthly service charge as determined by the District.

SECTION 4 - DISTRICT'S OBLIGATIONS

A. Area Coverage

(a) The District shall make diligent effort to extend electric service to all unserved persons within the service area of the Borrower who (i) desire such service and (ii) meet all reasonable requirements established by the Borrower as a condition of such service.

(b) If economically feasible and reasonable considering the cost of providing such service and/or the effects on consumers' rates, such service shall be provided, to the maximum extent practicable, at the rates and minimum charges established in the District's rate schedules, without the payment of such persons, other than seasonal or temporary consumers, of a contribution in aid of construction. A seasonal consumer is one that demands electric service only during certain seasons of the year. A temporary consumer is a seasonal or year-round consumer that demands electric service over a period of less than five years.

(c) The District may assess contributions in aid of construction provided such assessments are consistent with PUD Policy.

B. INTERRUPTION OF SERVICE

The District shall exercise diligence and care to furnish and deliver a continuous supply of electric power to the Customer, but will not be liable for interruption or shortage of supply due to accident or conditions beyond the District's control. In the event of such interruption or shortage, the District shall not be liable for any loss or damage occasioned thereby, nor shall such interruption or shortage constitute a breach of its contract.

C. CLAIMS FOR DAMAGES

The District has a procedure to evaluate claims for damages. A Claim for Damages form will be provided to parties, at their request, who have experienced property damage as a result of District action or as a consequence of connection to District facilities. Provision of a claim form is not an admission of liability. The District will investigate each claim for damages and respond to the claimant.

SECTION 5 - CUSTOMER'S OBLIGATIONS

A. INCREASED USE

1. In order to prevent damage to the District's equipment and impairment of its service, the Customer shall give the District notice before making any additions to his connected load so that the District, at its option, may provide such facilities as may be necessary for the furnishing of increased service. Such additions include, but are not limited to, electric heating. The District reserves the right to limit service to any Customer.
2. When increased load requires underground service conductor must be changed, the Customer must pay the expense of the installation of the new conductor and conduit, and the District will provide reconnection to its facilities.
3. In cases where a Customer load increases enough at one time to require upgrading of District electrical facilities, the Customer will pay the charge set forth in the Schedule of Deposits and Charges. In cases where system upgrade to primary distribution, transmission, or substation is required, the Customer will pay the upgrade cost (subject to Section 3.A.6). (Exception: where the District determines that service conductor must be replaced with primary conductor to maintain adequate voltage for the original service panel size, the District will perform the work at no charge.) Where gradually increasing loads from multiple Customers requires upgrading of District electrical facilities, the upgrade will be at no charge to the Customers.
4. Customer shall notify the District in advance of any new load coming on line or increase in existing commented Customer load greater than 50kW, Customer may be subject to a special contract inclusive of specific terms and conditions associated with the energy, demand, shaping interconnection and usage patterns in accordance with Section 2, Paragraph J. Any increase of load in excess of 50 kW for more than two months in a consecutive twelve (12) month period may be subject to an increase in electric rates.

B. BALANCING OF LOAD

The Customer or contractor shall connect any equipment to keep the load, under normal operating conditions, balanced within plus or minus 10 percent of the average load across the phase wires.

C. CLAIMS FOR DAMAGES

If a customer believes that District action or connection to District facilities may have resulted in property damage, the customer should notify the District as soon as possible. The expense of contractor repairs and/or parts may not be reimbursed unless the District has first been contacted and had opportunity to respond to the situation. The District's

Claim for Damages form is available for use by the Customer and will be helpful in making certain all-pertinent information is provided.

D. ACCESS TO DISTRICT FACILITIES

The Customer shall not permit access to District equipment or lines by anyone other than authorized representatives of the District. The Customer shall obtain and grant all necessary permission to enable District Representatives to install, maintain, service, or remove its facilities located on the Customer's property.

SECTION 6 -SERVICE REGULATIONS

A. AVAILABILITY OF SERVICE

1. Customer Requests Service

A Customer, before proceeding with the wiring or installation of equipment, shall request a determination of the availability of service from the District.

2. Available Electric Service

The District will advise the Customer of the most suitable phase and voltage available on established circuits. Service will be installed, connected, supplied, and maintained in accordance with the District's Electrical Service Requirements and these Regulations.

3. Protective Devices

Suitable protective devices on the Customer's premises may be required whenever the District deems such installation necessary to protect its property or that of its other Customers.

B. TEMPORARY SERVICE

1. Availability

Temporary service will be supplied under applicable rate schedules and in accordance with the following conditions:

a. The Customer will pay in advance the estimated cost of furnishing and removing the required facilities, less the value of materials returned to stock; provided that where service conductors and a meter are required; the advance payment will be as set forth in the applicable Schedule of Deposits and Charges.

b. The Customer will pay for such service at the monthly rate applicable to the class of service.

c. Temporary service will be provided for three months from the date the service is connected to District facilities. The Customer may request continuance of temporary service annually thereafter, and the District may continue such service at the Manager's discretion. If continuance of temporary service is not determined to be safe, the Customer will be notified of termination of such service and will be given a reasonable time, not to exceed one year, to convert to a permanent service.

C. SERVICE INSTALLATION AND MAINTENANCE

1. Electric Service Requirements

The District's Electric Service Requirements are applicable to every service in addition to the subsections below.

2. Overhead Services

Overhead service conductors will be installed by the District and attached to a connection point, acceptable to the District, provided by the Customer on the Customer's facility. In the case of metering on a District pole, the District will attach its conductors to the pole and connect to the Customer's wiring thereon.

3. Service Poles

The District will furnish and install any service poles where they are required. Payment for service poles shall be as determined in Section 3 -Line Extension Regulations.

4. Underground Services

Underground service conduit and trench will be provided and installed by the Customer or contractor. The conductor will be provided and installed by the District. Residential underground service conduit must be installed to District specifications and inspected and approved by a District representative prior to backfill.

5. Maintenance of Services

a. The District will maintain the service conductors between the District's transformer and the connections on the source side of the customer's weather-head on all overhead residential, commercial and industrial services.

b. Residential underground service conductors installed to District specifications between a District facility and the Customer's meter will be maintained by the District.

c. Apartments and Condominiums. The underground service or services to any multi-unit residential structure or structures containing more than 4 individually metered dwelling units shall be classified as commercial with respect to the requirements of this section.

d. Commercial or industrial underground service installed from the District transformer to the customer's point of metering should be maintained by the customer or the customer's contractor at the customer's expense. The

District will assist, by request, in the maintenance by providing available resources at the customer's expense.

e. The Customer's point of metering of an instrument transformer installation is considered to be at the instrument transformer.

f. Whenever a Customer requests changes to the service that affect the maintenance responsibility, the Customer will be so advised.

g. Tree trimming from the transformer to the house is the customers responsibility.

D. SERVICE ENTRANCE

1. Location of Service Entrance

The applicant for service shall determine from the District the location of the service entrance and metering equipment. Any wiring installed without first determining service entrance and/or meter locations as covered above is done at the risk of having to relocate the service to conform with the requirements of the District.

2. Number of Attachments

All service entrances will be so located that the service conductors installed by the District will reach the service entrance by attachment at only one location on the building.

3. Specific Requirements

Specific requirements are contained in the District's Electrical Service requirements.

4. Clearance.

The Customer shall keep the area around all meters, transformers, and other District facilities on the Customer's property free of vegetation, health and safety hazards, debris, and obstructions; to ensure clear and safe access at all times.

E. CUSTOMER EQUIPMENT ON POLES

No equipment, devices, or wiring, other than service entrance equipment belonging to a Customer, shall be attached to District-owned poles except by special permission from the

District; and any such attachment shall be done strictly in accordance with District specifications and rates and charges.

F. DETERMINATION OF DEMAND AND REACTIVE

The District is upgrading its meter reading system. Once in place the PUD will bill using kVA charges.

G. POWER FACTOR ADJUSTMENT.

This District is upgrading its meter reading system. Once in place the PUD will bill using kVA charges

H. ENERGY EFFICIENCY

1. Cities and County Areas

The current Washington State Energy Code and the current Washington State Ventilation and Indoor Air Quality Code are considered District-wide minimum energy efficiency standards for the applicable structures requiring code compliance.

a. The District shall consider a certificate of completion or similar occupancy permit issued by a building official and recognized by the State of Washington or other official and/or agency approved by the District, as evidence of satisfactory compliance with the District's energy efficiency standards in lieu of verification by District representatives.

b. Failure to secure the proper inspections and/or to comply with the District's energy efficiency standards will result in denial of service or disconnection.

2. Federal and Tribal Areas

In those areas of the District's service territory not regulated by the State of Washington, the current Washington State Energy Code and the current Washington State Ventilation and Indoor Air Quality Code, as applicable to Group R occupancy, shall be considered the District's minimum energy efficiency standards. The standards shall be applied by the District in a way that parallels enforcement by the State of Washington for the purposes of regulating the distribution of electric energy in a uniform manner and providing for the actual and prospective needs of the District.

a. District representatives shall be notified and allowed access to verify compliance with the District's energy efficiency standards.

b. Failure to comply with the District's energy efficiency standards will result in assessment of an Energy Resources Surcharge in order to receive or maintain new or altered electrical service.

3. Manufactured Homes

The 1994 HUD Code will be the minimum energy efficiency standard for manufactured homes in the District's service territory.

Manufactured homes that do not meet the minimum standard will be assessed an Energy Resources Surcharge at the time of application for electric service (see Schedule of Deposits and Charges).

a. Manufactured homes connected to District electric service are exempt from the surcharge when relocating within the service territory.

b. Manufactured homes that do not have permanently installed electric heat and are heated with other fuels or are non-residential are exempt from the surcharge.

c. Manufactured homes heated with a heat pump are exempt from the surcharge. Surcharge fees collected will be placed into the Conservation Resources Acquisition Account for installation of energy conservation measures.

SECTION 7 -CONNECTION OF MOTORS TO DISTRICT FACILITIES

A. GENERAL

Approval of the District is required before installation of any single-phase motor exceeding 7.5 horsepower.

B. Not Assigned

C. INDUSTRIAL MOTOR LOADS (COVERS ALL OTHER APPLICATIONS)

Industrial motor applications, up to and including 10 horsepower, are permitted to be started across the line. Motors over 10 horsepower require starting facilities which are subject to approval by the District.

SECTION 8 -DEPOSITS, CHARGES, PAYMENTS AND BILLING

A. DEPOSITS – The PUD Board has adopted the use of a technology-based screening tool called ONLINE Utility Exchange to assess credit risk at the point of application and charge deposits only to those potential customers and existing customers who pose credit risk.

1. Residential

A deposit may be required from a residential Customer, unless the Customer has established a satisfactory credit record with the District or as determined by District information obtained from ONLINE Utility. The deposit shall be as set forth in the District's Schedule of Deposits and Charges.

2. Nonresidential

A deposit may be required from a nonresidential Customer unless the Customer has established a satisfactory credit record with the District. The amount of such deposit will be determined by the District after consideration of estimated billings (see Schedule of Deposits and Charges).

3. Additional or New Deposits

Nothing in these rules shall prevent the District from requiring additional or new deposits when conditions warrant.

4. Refund of Deposits

At the discretion of the District, deposits may be refunded or credited to an account when the Customer, by prompt payment of all bills rendered over a period of one year or more, has established a satisfactory credit rating. Deposits will be refunded upon termination of service after all outstanding amounts due the District have been paid.

B. CHARGES

Payment of charges, as set forth in the applicable Schedule of Deposits and Charges, will be required of all customers.

C. PAYMENTS

1. Bills Payable Within Twenty-one (21) Days

All bills, for service rendered and minimum charges, are due when rendered and payable within twenty-one (21) days from the date of mailing, unless otherwise

specified, and if not so paid, become delinquent and subject to disconnection as outlined in Section 8, Item C.5.

2. Delinquent Payments

When a Customer develops a history of delinquency with the District in that billings are not paid within a twenty-one (21) day period as stipulated above, and further, are not paid within a thirty (30) day period following the date of mailing for two or more occasions, which need not be consecutive, the District may, at its option, require a deposit as security and/or require said Customer to make scheduled payments (on a monthly, or more frequent basis) to bring the account to a current status, and, therefore, said Customer may be required to assume monthly payments on an Average Payment Plan.

3. Average Payment Plan

"Average Payment Plan" shall be interpreted to mean that the Customer shall pay an estimated amount each month on or before a specified date; said account and date to be determined by the Manager of the District, beginning approximately one month following the scheduled reading of the Customer's meter, and continuing on a regular monthly basis thereafter, and if not so paid, the amount may be deemed delinquent and subject to disconnection as outlined in Section 8, Item C.5.

At the option of the General Manager, new Customers of the District, including all Customers who have not established credit with the District, shall be required to make monthly estimated payments on all utility bills according to a payment schedule determined by the District and presented to the Customer upon signing for utility service, or as soon thereafter as is practicable. Such monthly payments are due on the date established, and if not so paid, shall result in the account associated with said payments becoming delinquent and being subject to disconnection as outlined in Section 8, Item C.5.

4. Right to Disconnect Service

The right to discontinue service for default, as defined in Section 8, Item C.1, may be exercised whenever and as often as default shall occur; and neither delay nor omission on the part of the District to enforce this rule at anyone or more times shall be deemed a waiver of rights to enforce the same at any time, so long as the default continues.

5. Notice of Pending Disconnection

Written notice will be sent to a customer by first class mail at least five (5) days before service is discontinued under this regulation and will advise the Customer of the reason(s) for the disconnection action except in the case of fraudulent use of service, when the District may disconnect service without notice. For the purpose of

this regulation, notice shall be considered to have been given when placed in the United States mail addressed to the Customer at his address as shown on the District's records.

The District will attempt to provide additional notification approximately 24 hours prior to the disconnection through automated phone equipment when phone service is available or with field-delivered door hanger notice. (note: there will be a charge for notice hanger).

When it is necessary, in the opinion of the District, to mail a collection notice to any Customer (in addition to regular billing statement and/or monthly payment cards), a charge of the actual cost to the District may be added to the Customer's bill, in order that collection costs may be paid by those Customers creating said costs.

D. RETURNED CHECK CHARGE

An accounting service charge (Returned Check Charge), as set forth in applicable Schedule of Deposits and Charges, may be made to a Customer if a check tendered to the District as payment for utility service is not honored by the Customer's bank because of insufficient funds, the bank account's having been closed, or other irregularity.

E. FIELD COLLECTION CHARGE

It is not the District's policy to allow for Field Collections.

F. CUSTOMER'S RIGHTS

1. Informal Conference

A Customer who disputes the amount of a bill when due, or who does not intend to pay the full amount of the bill or invoice when due, shall have the right to an informal conference with certain designated employees in the District.

a. Informal conferences shall take place during the normal working hours -- 8:30 a.m. to 5:00 p.m., Monday through Friday.

b. The Customer may either appear in person in the District's office or confer by telephone.

c. Such designated employees shall have the authority to reach agreements with the Customer for a deferred payment schedule of the particular bill.

2. Appeal Hearings

If a Customer is not satisfied with the determination of the District's designated employee during the informal conference, the Customer may schedule a hearing with the District Hearing Officer.

a. The Hearing Officer and any Deputy or Assistant Hearing Officers shall be management-level employees and shall be appointed by the Commission from employees whose other duties are not connected with the credit section.

b. A written appeal by a Customer must be filed with the Hearing Officer within five working days after the determination of the informal conference.

c. In response to a timely appeal, the Hearing Officer shall arrange an appeal hearing at a mutually convenient and accessible location or conduct the hearing by telephone. Such hearing must be scheduled during normal working hours --8:30 a.m. to 5:00 p.m. Monday through Friday, and within seven (7) days of receipt of the Customer's appeal.

d. If the Customer requests, a record will be made of the proceedings. The Hearing Officer may use a tape recorder or other means of preserving a record which he/she deems appropriate; the Customer may provide, at his/her own expense, a court reporter, or supplemental means of providing a record. The Customer shall have the right to counsel.

e. The Customer shall open the hearing with a statement of the nature of the appeal and shall present whatever evidence the Customer deems relevant. The Customer shall have the reasonable right to examine the records of the District relating to his/her account. After the Customer has completed presenting his/her appeal, the appropriate District personnel shall provide the District's position. The Customer shall have the right to rebuttal.

f. The Hearing Officer shall provide the Customer with a written decision setting forth (a) the nature of the Customer's appeal; (b) the decision of the Hearing Officer; and (c) the reasons for the decision of the Hearing Officer. The written decision shall be promptly sent to the Customer by certified mail and may also be communicated by telephone.

g. Service will not be disconnected while an appeal is pending provided that the Customer has complied with the above procedural requirements. The Customer shall have seventy-two (72) hours following the receipt of the written decision of the Hearing Officer to comply with the terms and conditions of the decision. If the Customer fails to take the action required by the Hearing Officer, including payment of a past-due bill, or if he/she refuses

to accept receipt of the Hearing Officer's decision, the District may disconnect service without further notice to the Customer.

G. RECONNECTION CHARGE

Whenever personnel have been dispatched to disconnect service as per these Regulations, a charge, as set forth in the District's Schedule of Deposits and Charges, will be made for restoring service. In the event that the actual cost of labor, transportation, and overhead to cover the expense of such restoration exceeds the designated charge, the Customer shall pay the actual cost.

H. METER TESTING

When a Customer inquires into his/her billing for any particular month, the District will, upon request have such meter reread and the service inspected for defects. Should the Customer then desire that the meter be tested, he/she shall be required to make a deposit, as set forth in the Schedule of Deposits and Charges, to cover the cost of making such test. The meter will then be tested.

Should the meter show an error of over five (5) percent, said deposit will be refunded to the Customer, the meter corrected, and the bill adjusted. If the test of such meter should show an accurate measure within five (5) percent, the deposit will be retained by the District to cover the cost of testing. Whenever it shall be determined that any meter has not been registering correctly, then an average bill may be rendered, based either on the nearest four preceding months' average use when the meter was in good order, or on the same month of the preceding year if the use is seasonal.

I. METER TAMPERING CHARGE

Any Customer receiving unmeasured or unauthorized electrical services is responsible for paying the full amount of said services reasonably determined by the District to have been diverted around the meter or received un metered or unauthorized due to meter tampering, alteration, or replacement.

A Meter Tampering Charge, as set forth in Schedule of Deposits and Charges, will be added to the estimated billing for unmeasured or unauthorized services to cover the expense of District equipment restoration. In the event that the actual cost of labor, transportation, and overhead to cover the expense of such restoration exceeds the designated charge, the Customer shall pay the actual cost.

J. METER READING, ESTIMATIONS

Meters will normally be read and bills rendered on a monthly cycle. Readings may be done electronically.

If, in the opinion of the District, inclement weather or other extenuating circumstances make it impossible for the District to read meters for a temporary period, the District reserves the right to estimate meter readings and render bills based upon such estimates. Estimates will be based upon account history and weather factors. Actual energy consumption will be confirmed and adjusted as necessary with a subsequent regular meter reading cycle.

Closing meter readings will be done within 5 days of being requested by the Customer.

K. BILLING

1. Regular Bills

Bills for the regular billing period will be rendered based upon the meter reading or estimate.

2. Closing Bills

Closing bills will normally be rendered within ten (10) days of the Customer requested disconnect date, or with the regular billing cycle.

3. Billing Error Adjustments

The customer is financially responsible for all electric energy or water passing through the meter. In the event of an error in billing, such as equipment failure or employee recording error, the District will make an adjustment to the billing on the basis of the best information available. In the event the adjustment is in favor of the customer (present or previous), the District will credit the customer account (or refund the credit with the request of the customer). The credit will be computed pursuant to Washington State Statutes of Limitation.

In the event the adjustment is in favor of the District, a retroactive billing to the customer will be provided. The retroactive billing computation will be limited to the most recent 6-month period prior to the time of the correction. The customer may choose to pay the retroactive billing over a period of time in agreement with the District.

SECTION 9 -VALIDITY AND EFFECTIVE DATE

A. VALIDITY

If any section, subsection, subdivision, sentence, clause, or phrase of these Regulations is for any reason held to be unconstitutional or void, such invalidity shall not thereby affect the validity of the remaining portions of these Regulations.

B. EFFECTIVE DATE

These Regulations are to take effect and be in force from and after the 1st day of January 2017.

ADOPTED by the Board of Commissioners at Public Utility District No.1 of Jefferson County, Washington, this 13th day of December, 2016.

**PUBLIC UTILITY DISTRICT NO.1
OF JEFFERSON COUNTY
JANUARY 1, 2017**

DEPOSITS

General: The PUD uses a national agency, ONLINE Utility Exchange, to determine the amount of risk a customer provides for the utility in paying their bills in a timely manner. This agency rates a customer a Green, Yellow, or Red as far as their risk to the utility. This rating will determine the deposit amount. The customer deposit cannot be used for paying a delinquent bill.

Electric

Residential: For a green rating, no deposit will be required. For a yellow rating a \$100 dollars deposit will be required. For a red determination, a \$200 dollar deposit will be required.

Non-Residential: Two-twelfths of estimated annual billings or as determined by the District.

Water/ Sewer

Residential: None.

Non-Residential: None

Deposits will be automatically credited back to the account after one year of perfect payment history.

CHARGES

New service application:

Any combination of electrical, water, or sewer only: \$ 20.00

Net Metering application: A non-refundable application fee must accompany this Application and Agreement:

- | | | |
|----|---|----------|
| 1) | Generating Facilities of 0 kW to 25 kW | \$100.00 |
| 2) | Generating Facilities of greater than 25 kW | \$500.00 |
| 3) | Other fees will apply for actual meter installation | |

Connect - Reconnect/ Read-out Charges – applicable to standard new or existing services.
(Read-outs charged to incoming, not out-going)
(Disconnect charges will be applied at time of reconnect and will be the responsibility of the requesting party).

Electric

- | | |
|---|--------|
| 1) Meter including multiple (water and sewer) meters for same acct. | \$ 60 |
| 2) Disconnect or reconnect at transformer – (construction) | \$ 150 |

Water	Independent of electric	\$ 60
--------------	-------------------------	-------

Sewer	Inspect customer connection	\$ 150
--------------	-----------------------------	--------

After Hours and/or Nonpayment (in addition to other application charges) \$ 250
 Requests received between 1:00 pm and 9:00 am of next business day will be charged the additional \$250 if customer cannot wait for turn on the normal business day.

Reread Meter (customer request due to high consumption)	\$ 30
No Charge if reading is incorrect	

Access Appointment to Read Meter	\$ 30
---	-------

New Service Charges – including connect charge and engineering charge

Electric – Overhead – Self-contained meter only

- | | | |
|----|---|----------|
| 1) | Single phase -- Existing Overhead Transformer
(Inc. OH Triplex svc to cust bldg up to 120' from existing transformer) | \$ 1,000 |
| 2) | Single phase -- Install new overhead transformer
(Inc. OH Triplex svc to cust bldg up to 120' from existing transformer) | \$ 1,685 |
| 3) | Each additional lift/secondary pole (may require engr. Est) | \$ 1,500 |
| 4) | Overhead service with road crossing includes new lift pole | \$ 1,600 |
| 5) | Underground service up to 350' with new Overhead transformer on an existing pole includes secondary riser | \$ 1,800 |
| 6) | All Three phase work – will require engineer estimate. | |

Electric – Padmount – Self-contained meter only

- | | | |
|-----|---|----------|
| 7) | Single phase – underground service up to 350' from existing Pad mount transformer | \$ 750 |
| 8) | Single phase – underground service up to 350' increasing the transformer size, upgrade | \$ 1,435 |
| 9) | All Three phase power will require an engineer estimate | |
| 10) | All commercial services and multifamily services are charged based on an Engineers estimate | |

Electric – Others

- | | | |
|-----|--|-------------|
| 13) | Additional meter(s) at a multiple installation involving a single service run | |
| a) | Each add'l meter installed with original connection | \$ 250 |
| b) | Add'l charge for each meter installed at a later time than original connection | \$ 350 |
| 14) | CT Meter Connection (in addition to one of the above) | |
| a) | Up to and including 800 AMP | \$ Engineer |
| b) | Greater than 800 AMP | \$ Engineer |
| 15) | Net Meter Installation | |
| a) | Standard Meter or AMR Meter | \$ 350 |
| b) | CT Meter / AMR-CT Meter | \$ 595 |
| 16) | Production Meter Installation Fees | |
| a) | Standard Meter | \$ 165 |
| b) | Advanced Meter | \$ 595 |
| c) | Additional Standard Meter | \$ 165 |
| d) | Additional advance Meter | \$ 595 |
| 17) | Temporary Service – in addition to above new service charge Customer supplies wire for underground temporary service – | \$ 200 |
| 18) | Temporary Service – Community Sponsored Festival Only | \$ Engineer |

Water - Residential ¾ inch meter.

- | | | |
|----|---|---------|
| 1) | Hookup Charge – full meter regardless side of road | \$ 1550 |
| 2) | Meter Drop | \$ 255 |
| 3) | System Development Charges (per ERU): Meter connection not included | |
| a. | Standard | \$ 2000 |
| b. | Marrowstone (LUD#14) | \$ 7300 |
| c. | Shine (LUD#11) | \$ 7000 |
| d. | Snow Creek | \$ 2900 |
| e. | South Hastings Loop (LUD#3) | \$ 2800 |

- 4) Late-comer charges - per agreement with developer

Sewer System Charges

- 1) Hookup Charge \$ 150
- 2) System Charges. Each system charge has been developed separately and will have to be calculated at the PUD at time of connection.
- 3) PUD inspection of septic system (minimum) \$ 350

Misc. Service Charges – Alphabetical Order

Access Appointment (e.g. Maintenance & Repair)

- 1) Electric \$ 175
- 2) Water \$ 60
- 3) Sewer \$ 60

Assessment Segregation – actual cost \$ 50 (min)

Customer Service Conversation

- 1) Convert overhead service to underground service \$ 500
- 2) Change meter base to larger meter base size \$ 500
- 3) Upgrade overhead service wire to larger size \$ 500

Easements and Other Recorded Documents

- 1) Easements/ Bill of Sale \$ 200
 - 2) Replacement Easements / Quit Claim Deeds \$ 200
- Total cost by customer

Engineering Charge for Developer Proposals Actual cost over \$ 1,000

Field Door Hanger \$ 15

Fire Hydrant Use – Temporary Service

Flat monthly fee	\$ 75
Consumption Commercial rate	
Deposit	\$ 500

Increased Loads – Add service conversion charge when a transformer

Upgrade is required to maintain adequate capacity for a service upgrade.

Add connect charge for new services.

- 1) Single overhead \$ 755
- 2) Two overhead \$ 1,005
- 3) Three overhead \$ 1,850
- 4) Single pad mount \$ 755
- 5) Three-phase pad mount Engineer Estimate

Lock Box – installed (one size only) \$ 315

Meter Tampering

- | | | |
|----|---|--------------|
| 1) | Cut or missing seal (electric or water) (first time) | \$ 125 |
| 2) | Unauthorized connect or reconnect of meter (elec/h20) | \$ 500 |
| 3) | Power diversion investigation – actual cost & requires a W.O. | \$ 285 (min) |
| 4) | Water diversion investigation – actual cost & requires a W.O. | \$ 265 (min) |

Meter Testing

- | | | |
|----|------------------|--------|
| 1) | Electrical meter | \$ 165 |
| 2) | Water meter | \$ 85 |

Non-Sufficient Funds / EFT Returns

\$ 30

SMA Hourly Rate

\$ 70

Trip Charge (Customer not prepared for scheduled work)

- | | | |
|----|-----------------------|--------|
| 1) | Electrical Serviceman | \$ 250 |
| 2) | Line Crew | \$ 450 |
| 3) | Water Serviceman | \$ 70 |

Water

- | | | |
|----|-------------------------------------|--------|
| 1) | Seasonal Off/on of water service | \$ 15 |
| 2) | Annual Backflow test if done by PUD | \$ 150 |

Yard Lights

- | | | |
|----|--|---------|
| 1) | Install light only; along with new service | \$ 450 |
| 2) | Install light only, established account | \$ 450 |
| 3) | Install pole and light | \$1,475 |

PUD RATE ELECTRICAL SCHEDULES

Schedule	Description
7	Residential Electric Service
8	Residential and Farm General Service (Eliminated 1 January 2017)
24	General Service
25	Small Demand General Service
26	Large Demand General Service
29	Seasonal Irrigation & Drainage Pumping Service
31	Primary General Service
43	Interruptible Primary Service for Total Electric Schools
81	Tax Adjustment
90	Lighting Schedules/ Miscellaneous attachments

Public Utility District No. 1 of Jefferson County

SCHEDULE 7 RESIDENTIAL ELECTRIC SERVICE (Single phase and three phase)

AVAILABILITY:

1. This schedule is limited to residential service, which means service that is delivered through one meter to a single-family unit and is used principally for domestic purposes, even though such service may incidentally be used for nondomestic purposes. Electric service for nondomestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
2. If this schedule is applied to transient occupancy in separately metered living units, billing shall be in the name of the owner on a continuous basis.
3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the PUD.
4. Space conditioning and water heating capacities shall be energized in increments of 6 KW or less by a thermostat, low voltage relay, or suitable time delay equipment.
5. Customers requiring three-phase service under this schedule will be required to contribute the incremental cost of three-phase facilities to provide such service.

MONTHLY RATE: EFFECTIVE DATE: January 1, 2017

Basic Charge: \$14.50 single phase or \$ 27.00 three phase

Energy Charge:

\$ 0.085011 per kWh for the first 600 kWh

\$ 0.103589 per kWh for all over 600 kWh

MONTHLY RATE: EFFECTIVE DATE: June 1, 2017

Basic Charge: \$14.50 single phase or \$ 27.00 three phase

Energy Charge:

\$ 0.0860 per kWh for the first 600 kWh

\$ 0.1048 per kWh for all over 600 kWh

Effective: January 1, 2017 this schedule was eliminated by resolution of the PUD Board of Commissioners, Customers of this rate class are now in Rate Schedule 7

Public Utility District No. 1 of Jefferson County

SCHEDULE 8 **RESIDENTIAL AND FARM GENERAL SERVICE** (Single phase or three phase where available)

AVAILABILITY:

Service under this schedule is available to any customer who otherwise meets all the requirements for service under Schedule 12 and additionally whose electric use qualifies as a "residential load" "Residential load" means:

- a. All usual electric service used in connection with permanent or seasonal living quarters of individuals or families;
- b. All usual electric service used in connection with domestic needs of occupants of multifamily complexes;
- c. All usual electric service used in connection with farm activities including incidental primary processing.

Any electric use by such customer which does not qualify under this schedule shall be separately metered and served under other appropriate rate schedules.

MONTHLY RATE:

~~Basic Charge:~~ \$9.66 single phase or \$24.55 three phase

~~Energy Charge:~~

~~8.5189¢ per kWh for the first 600 kWh~~

EFFECTIVE DATE:

~~April 1, 2013~~

As of January 1, 2017 this schedule was eliminated. Existing customers were moved to schedule 7 or schedule 24

Public Utility District No. 1 of Jefferson County

SCHEDULE 24 GENERAL SERVICE

(Secondary Voltage)

(Single phase or three phase where available)

(Demand of 50 kW or less)

AVAILABILITY:

1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 1) and whose estimated or actual Demand is 50 kW or less.
2. Customers whose metered Demand exceeds 50 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
3. Customers with less than 12 months billing history and Billing Demand over 50 kW twice are not eligible for service under this schedule.
4. Deliveries at more than one point will be separately metered and billed.
5. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the PUD.
6. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the PUD.

MONTHLY RATES:

EFFECTIVE DATE: January 1, 2017

Basic Charge: \$ 17.00 single phase or \$ 34.00 three phase

Energy Charge:

April – September 9.1974¢ per kWh

October – March 9.5072¢ per kWh

EFFECTIVE DATE: June 1, 2017

Basic Charge: \$ 17.00 single phase or \$34.00 three phase

Energy Charge: \$ 0.0923 per kWh

Public Utility District No. 1 of Jefferson County

SCHEDULE 25 SMALL DEMAND GENERAL SERVICE

(Secondary Voltage)

(Single phase or three phase where available)

(Demand Greater than 50 kW but less than or equal to 350 kW)

AVAILABILITY:

1. Customers whose Billing Demand is 50 kW or below for eleven (11) of the most recent 12 consecutive months or above 350 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
2. Deliveries at more than one point will be separately metered and billed.
3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the PUD.
4. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the PUD.

MONTHLY RATE:

EFFECTIVE DATE: 1 January 2017

Basic Charge:	\$ 60.00	
Demand Charge:		
October – March	Over 50 KW	\$ 9.01
April – September	Over 50 KW	\$ 6.01
Energy Charge:		
October – March	First 20,000kWh	\$ 0.094791
	Over 20,000 kWh	\$ 0.069280
April – September	First 20,000kWh	\$ 0.086638
	Over 20,000 kWh	\$ 0.069280
Reactive Power Charge	\$ 0.002830 per KVARH	

EFFECTIVE DATE: 1 June 2017

Basic Charge:	\$ 60.00
Demand Charge:	\$ 5.00 per kW on all kW
Energy Charge:	\$ 0.810 per kWh

Public Utility District No. 1 of Jefferson County

SCHEDULE 26 LARGE DEMAND GENERAL SERVICE

(Secondary Voltage or at available Primary distribution Voltage)
(Single phase or three phase where available) (Demand Greater than 350 kW)

AVAILABILITY:

1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is greater than 350 kW.
2. Customers taking service at Secondary Voltage and whose Billing Demand is 350 kW or below for eleven (11) of the most recent 12 consecutive months are not eligible for service under this schedule.
3. Deliveries at Secondary voltage at more than one point will be separately metered and billed. Deliveries at Primary voltage to a Customer will be at one Point of Delivery for all service to that Customer on contiguous property.
4. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
5. Highly intermittent loads, such as welders, X-ray machines, elevators, and similar loads that may cause undue lighting fluctuation, shall not be served under this schedule unless approved by the PUD.
6. For service at Primary voltage, all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the PUD. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by PUD engineers.

EFFECTIVE DATE: 1 January 2017

MONTHLY RATE — SECONDARY VOLTAGE:

Basic Charge: \$110.00

Demand Charge:

October – March \$8.94 per kW of Billing Demand

April – September \$5.96 per kW of Billing Demand

Energy Charge: 6.7061¢ per kWh

Reactive Power Charge: 0.281¢ per reactive kilovolt ampere-hour (kvarh)

EFFECTIVE DATE: 1 June 2017

Basic Charge: \$ 110.00

Demand Charge: \$ 9.00 per kW on all KW

Energy Charge: \$ 0.0720 per kWh

Public Utility District No. 1 of Jefferson County

SCHEDULE 29 SEASONAL IRRIGATION & DRAINAGE PUMPING SERVICE (Single phase or three phase where available)

AVAILABILITY:

1. This schedule applies to any Customer whose seasonal electric energy requirements are used exclusively for the purpose of irrigation and/or drainage pumping of water on agricultural land used in production of plant crops, and who requires service at secondary voltage. To be eligible for service under this schedule, customers must be qualifying agricultural irrigation or drainage pumping customers pursuant to the Bonneville Power Administration's General Rate Schedule Provisions.
2. Usage must be measured at the point of delivery and deliveries at more than one point will be separately metered and billed.
3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the PUD.
4. Lower loads which may cause undue fluctuations in electric service shall not be served under this schedule unless approved by the PUD.

MONTHLY RATE:

EFFECTIVE DATE: 1 January 2017

Basic Charge: \$ 30.00

Demand Charge:

October – March	Over 50 KW	\$ 8.83
April – September	Over 50 KW	\$ 4.35

Energy Charge:

October – March	First 20,000kWh	\$ 0.091225
	Over 20,000 kWh	\$ 0.069678
April – September	First 20,000kWh	\$ 0.063718
	Over 20,000 kWh	\$ 0.054831

Reactive Power Charge: 0.2810¢ per reactive kilovolt ampere-hour (kvarh)

EFFECTIVE DATE: 1 June 2017

Basic Charge: \$ 30.00

Demand Charge:

Energy Charge: \$0.065 per kWh

Public Utility District No. 1 of Jefferson County

SCHEDULE 31 PRIMARY GENERAL SERVICE

(Single phase or three phase at the available Primary distribution voltage)

AVAILABILITY:

This schedule applies to all service to contiguous property supplied through one meter where:

1. The customer requires primary voltage to operate equipment other than transformers; or
2. The customer requires distribution facilities and multiple transformers due to loads being separated by distances that preclude delivery of service at secondary voltage; or
3. The load is at a remote or inaccessible location that is not feasible to be served at secondary voltage from PUD facilities.
4. All necessary wiring, transformers, switches, cut-outs and protection equipment beyond the point of delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the PUD. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by PUD engineers.

MONTHLY RATE:

EFFECTIVE DATE: 1 January 2017

Basic Charge: \$339.51

Demand Charge:

October – March	\$ 8.64
April – September	\$ 5.76

Energy Charge:

\$ 0.064918¢ per kWh

Reactive Power Charge:

0.106¢ per reactive kilovolt ampere-hour (kvarh)

EFFECTIVE DATE: 1 June 2017

Basic Charge: \$ 300.00

Demand Charge: \$ 8.25 per kW for all kW

Energy Charge: \$ 0.0700 per kWh

Public Utility District No. 1 of Jefferson County

SCHEDULE 43 **INTERRUPTIBLE PRIMARY SERVICE FOR TOTAL-ELECTRIC SCHOOLS** (Single Phase or three phase at the available Primary distribution voltage)

AVAILABILITY

1. Service under this schedule is available to permanently located schools whose total water heating and space conditioning requirements are supplied by electricity.
2. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the PUD. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by PUD engineers.

PEAK LOAD INTERRUPTION:

The customer shall interrupt electric loads to a level not to exceed .6watts per square foot of structure between the hours of 5:00p.m. and 8:00 p.m. on any day the Company requests interruption. Any electric loads in excess of .6 watts per square foot of structure shall be subject to the CRITICAL DEMAND provisions below.

MONTHLY RATE - EFFECTIVE 1 APRIL 2013

Basic Charge: \$339.51 per month

Demand Charge: \$4.60 per KW

Plus \$3.89 per KW of Critical demand in previous 11 months

Energy

6.066¢ per KWh

Reactive Power

0.3¢ per KVARh

MONTHLY RATE – EFFECTIVE 1 JUN 2017

Basic Charge: \$300.00 per month

Demand Charge: \$5.00 per KW

Plus \$3.89 per KW of Critical demand in previous 11 months

Energy

\$ 0.0640 per KWh

Reactive Power

0.3¢ per KVARh

BILLING DEMAND:

The highest Demand established during the month.

CRITICAL DEMAND:

The highest average 15 minute demand recorded between 5 p.m. and 8 p.m. on any day the customer has been notified by the PUD that power interruption is required, less a demand credit allowed at the rate of .6 watts per square foot of structure.

REACTIVE POWER CHARGE:

The reactive power charge shall apply to only those electric loads with a maximum monthly Demand of 100 kW or higher. The meter used for the measurement of KVARh shall be ratcheted to prevent reverse registration.

Public Utility District No. 1 of Jefferson County

SCHEDULE 81 TAX ADJUSTMENT

1. APPLICABILITY: The adjustments contained in this schedule apply to any rate or charge upon which a tax is applicable within the jurisdiction with a taxing authority imposing a Local Utility Tax.
2. TAX ADJUSTMENT: The rate charges named in this schedule pertain to the following:

City of Port Townsend Utility Business Tax imposed by Ordinance **5.84.030.**

City Utility Business Tax (6%) – Charged on PUD electrical charges & incidental services

EFFECTIVE DATE:

1 January 2017

Public Utility District No. 1 of Jefferson County

LIGHTING & MISCELLANEOUS ATTACHMENT SCHEDULE

LIGHTING SERVICE PUD OWNED

AVAILABILITY:

1. This schedule is available to all Customers contracting for PUD owned and maintained lighting service for illumination of streets, highways, and other areas with a new or existing lighting system.
2. Service under this schedule may be pursuant to a service agreement, which shall be consistent with this schedule and shall be of a standard form provided by and satisfactory to the PUD.
3. All non-standard equipment is subject to approval by the PUD prior to installation.
4. Service under this schedule is effective for a minimum period of fifteen (15) years for lights installed by the PUD unless:
 - a. a subsequent customer requests service or;
 - b. the facilities are removed, whereupon appropriate removal charges shall be paid. After expiration of such term, service shall continue on a year-to year basis until terminated upon one (1) year's notice in writing. Such terms may be adjusted by the Company for existing systems purchased by the PUD, based on the estimated remaining life and purchase price.
5. Where necessary, the Customer shall obtain for, or grant to, the UD necessary permits and /or operating rights to place and/or maintain lighting facilities on public streets, highways, and public areas without expense to the PUD. In conditions where it is necessary to place any lighting facilities on private property, the customer shall obtain and furnish suitable easements without expense to the PUD.
6. Service under this schedule is available only for (i) lighting systems that are newly constructed and PUD owned that utilize underground circuitry or, upon approval of the PUD, utilize overhead circuitry and (ii) existing LED lighting systems upon purchase by the PUD. The PUD shall not be obligated to install overhead circuitry or purchase an existing system. Lighting systems shall include all of the following: decorative or customer poles, circuitry, decorative or custom LED luminaries, photocells and necessary bracket arms. The PUD will furnish all necessary labor, material and supplies for the installation, servicing and maintenance of lights under this schedule, except as provided in paragraph 8 of Special Terms and Conditions herein.

TYPE OF SERVICE:

Service under this schedule applies to dusk-to-dawn lighting of streets, alleys, and other areas which can be served from the PUD's distribution system

MONTHLY RATES:

The sum of Lamp and Facilities charges. The monthly lamp charge per lamp wattage.

EFFECTIVE DATE: 1 January 2017

Basic Charge:

Less than 100 Watts	\$13.00
100 Watts to 200 Watts	\$15.25
More than 200 Watts	\$17.50

SPECIAL TERMS AND CONDITIONS

1. Notification of Inoperable Lights: For lights where the PUD provides routine maintenance, it shall be the responsibility of the Customers to notify the PUD of lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the PUD will investigate and take corrective action if such action is the responsibility of the PUD. If such PUD investigation/corrective action is not taken within seventy-two (72) hours for each such light, the Customer's billing shall be credited an amount equal to the monthly Lamp charges normally billed for that light. The PUD will be excused from providing maintenance service within seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the PUD's control.
2. Hours of service. Service under this schedule is for dusk-to-dawn lighting, or lighting service for average number of hours of darkness per month.
3. Removal, Relocation or Modification of Light Facilities. Lighting facilities will be removed, turned off, relocated or modified by the PUD only after receipt of a letter signed by the Customer or its assignee who is in authority to order such action. Only the PUD may remove, relocate or modify PUD owned lighting facilities. Modification includes changes in type of lighting fixture or changes in bracket length or mounting height due to Customer, city, county or state requests or requirements. Relocation includes relocation of supporting poles and conversion of the serving distribution facilities to underground due to Customer, city, county, or state request or requirement. In advance of any removal, relocation or modification, the Customer shall pay an amount equal to the estimate cost of such removal, relocation or modification. This estimate charge shall include the cost of removal of facilities that now serve light load only. All facilities installed or removed remain the sole property of the PUD. The cost of removal, relocation or modification also includes any costs of traffic control or other associated costs. At the time of when no Customer is taking service for light under this schedule, the PUD, at its sole option, may remove all facilities used in providing service. Lights that are removed because there is no longer a customer to accept service will be considered removals required by the last customer of record for the purposes of assessing the charges.
4. Other Loads on Lighting System. Where unmetered lighting circuits include provision for other or additional usage such as electric outlets (festoon outlets) the PUD may require that service be metered and billed under the appropriate general service schedule.
5. Billing information to be Provided by the PUD. For each type, and wattage of light the PUD shall provide the total number of lights billed and the total dollar amount for the month by lamp size and type.
6. Non-Standard Equipment: Non-standard Equipment is defined herein as equipment which is not standard to the PUD and not included in the PUD's inventory for maintenance. Photo cell lighting, radio controls, wireless transmitters/receivers are examples of Non-Standard Equipment until the PUD decides otherwise and modifies this provision indicating such decision. Non-Standard Equipment installed under this schedule is subject to the following conditions.
